## Open Air Campaigners - Central Services

**JANUARY 2025**

**Phone:** (610) 509-6131

**Email:** oacutlip@gmail.com

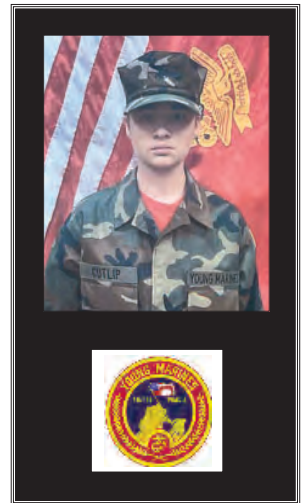

**We hit the ground running** in this new year and are looking forward to a number of significant events which will take place in the coming months.

**As I write this letter**, staff man, Tom Fox, and his wife, Carmen, are teaching at the Indigenous Bible College out in Flagstaff, Arizona. Our overseas missionary of many years, David Wilson, is in Kenya ministering with our staff there in the open air. Just a few days ago, I conducted a children's program locally in the Easton, Pennsylvania, area and next week, Boston staff Eric & Diane Briscoe, along with Virginia staff man, Paul Adams, will be at Liberty University in Virginia recruiting students to join us in spring break open-air outreach in the Miami, Florida, area. Sue is gearing up to assist our elders at church in conducting a new member's class at church and in just a number of days, here in the USA, we will have a new President. And this is just for starters here in the month of January!

**Sue and I are looking forward** to being with all our OAC-USA co-workers for a week-long staff and board members retreat in the Santa Cruz mountains of northern California at the end of March. God has provided all the funds needed for this get-together where we will re-charge our spiritual batteries, encourage one another, and plan for future ministry. On the way home, we plan on stopping over in Utah to visit with daughter, Shannon, and her husband, Paul. Shannon has started her own business working with contractors and booking clients for painting and wall-papering projects while Paul continues to work with various contacts as a pilot.

**Chris and Stephanie's daughter**, our one and only granddaughter, Lexi, is now active in the Young Marines program along with her continuing involvement running track at school and participating in local theater productions from time-to-time. Her last "gig" was in the Sound of Music, which was terrific. She is planning another mission trip with Teen Missions, this time to South America later this year. Details at <https://teenmissions.org/involvement> (search "Cutlip").

University of South Florida

**Chad finished up** his college classes here locally. He and Sarah will soon be weighing their options and making some long-term plans concerning their future vocations and location preferences. It's an exciting time filled with mixed emotions for all of us. We know all our future plans are in His hands, and so we commit Chad and Sarah to His good care.

**Last month**, I was able to join our OAC-USA branch directors in the Tampa/St Pete area of Florida for a week of prayer, planning, and ministry. During the week, we spent some time of outreach on the University of South Florida campus. God provided many one-on-one divine appointments, and it was encouraging to share the hope we have in Christ with these young people who are in the beginning stages of important life-long decision-making.

**Thank you, again**, for being part of our support team so we can help other OAC missionaries here in the States and in over 30 countries around the world. Enjoy the pictures on the following pages which will give you a visual perspective of this wonderful ministry to which God has called us!

*John & Sue*

**We are grateful to God** that He is raising up a new generation to join us in open-air evangelism. Our newest “recruits” are in the country of Ecuador. OAC Ecuador came to be back in 1988 when David Proano participated in one of our open-air evangelism training seminars. He came on staff, eventually became OAC Ecuador Director, and today also serves as our OAC International President. David, his wife, Monica, and all their children are totally committed and active in open-air ministry in their country. Their daughter, Isabella, is now engaged to a fine young man who is also called to full-time service with OAC in that country. Here are the details as told by David Proano.

*“Caleb Boles and Isabella Proaño, soon to be the Boles Family, are set to get married on February 15th of this year! They are full-time staff serving with OAC Ecuador and are deeply passionate about reaching souls in the country. Both have committed their best years to proclaiming the Gospel’s good news wherever there is a need.*”

*Isabella has been involved in OAC ministry her entire life, serving alongside her parents for many years. By the grace of God, she will now continue her mission with her husband, whom she had long prayed for. Caleb has also been involved in street preaching from a young age. After he and his family moved from the US to Ecuador and met the Proaño Family, he began preaching passionately in the streets, plazas, and schools with OAC Ecuador.”*

# AROUND THE CORNER

**Here in my own “Jerusalem,”** I continue to find myself wearing many hats! The wide variety of tasks and responsibilities within Open Air Campaigners through the years has been a source of great blessing and enjoyment to me, and I never seem to tire of carrying out these jobs. The bulk of my time finds me helping our staff here in the States and around the world to keep everyone in communication with one another, as well as track and move funds to them as needed for support and special projects. I also help my co-worker here, Mike Bussen, pack up and ship open-air evangelism supplies to our missionaries, folks who have been trained in and are conducting ongoing open-air evangelism, and missionaries from other organizations. Last year, we shipped supplies to Greece, Romania, Russia, Ukraine, Brazil, Jamaica, Canada, Mexico, and multiple states in the USA! Of course, I still go through those open doors which come along to be out in the open air and share Christ with those who will not or cannot come into our local churches to hear the Gospel.

Open Air Campaigners is an evangelistic ministry of preaching the Gospel to lost people and mobilizing the body of Christ to do the same, primarily through effective open-air outreach.
